

Web-Based Risk Control Training: 2015-2016

APIP Members

The Alliant Property Insurance Program (APIP) offers members the help they need to address complex risk control issues. Alliant Risk

Control Consulting will be presenting a series of one-hour, web-based safety training programs **at no additional charge**.

Risk Control and property insurance presenters are considered expert in their field of work with over 20 years of experience.

Additional details are:

- **Risk Control has redesigned the webinars and targeted the unique hazards associated with property loss.**
- This is an audio-plus-web format that enables participants to receive risk control/safety training without leaving their facility. All members need is a windows-based computer, audio (speakers) and a high speed internet connection.
- Since the programs are delivered live, participants are able to send their questions electronically to the presenter.
- You can choose to participate in selected programs, or the entire series.
- All programs are recorded for future playback.
- Detailed information on each program, including how to register, will be provided in advance of each webinar. To be included in our distribution list, e-mail or call us at the contact information below.

Webinar Coordinator: Call (949) 260-5042 or e-mail riskcontrol@alliant.com

All training programs will be held from 10 a.m. to 11 a.m. Pacific Time.
